

OLEVI

The Power of Coaching Programme

Practitioners will gain a deeper understanding about the *power of coaching* and the impact that great coaching has on learning, being able to confidently apply a number of strategies to deepen the thinking of pupils, inspire colleagues to develop and grow, and become a more reflective and energised professional.

This programme consists of 3 sessions focused on developing your coaching skills with a series of post session challenges, completed over a 3-week period. The sessions are between 2 - 3 hours and can be run during morning, afternoon or twilight sessions. The programme has been designed for online, face to face or blended facilitation.

Full attendance at this programme will enable you to utilise models and approaches to coach pupils and professionals to improve learning, thinking and well-being; professionally challenge expectations and begin to shift mindsets; and model courage, humility and discipline when engaging with coaching conversations.
